## PROFILE

I am a junior developer with an eye for detail and a methodical approach to solving complex problems. Comfortable moving from a leadership role to a collaborative and valuable team member in a standard driven environment. Adaptable and experienced working in dynamic environments with continuous changes in scope and design. Interested in further developing both personally and professionally, striving to keep up to date with constant advancements in technology. A loyal, hardworking, team player, with an excellent work history. My positive, solution-oriented attitude makes me a valued coworker and team leader. I've always loved a challenge and enjoy sticking with it and seeing it through. Doing whatever it takes to get it done, brings tremendous satisfaction. After being given the opportunity to explore web development, I have found a medium that I love and am truly excited about. I look forward to many years, always developing.

## QUALITIES

- Leadership
- Consulting
- Creative
- Collaboration
- Management
- Development
- Research
- Result focused
- Solution-Oriented
- Motivated
- Loyal
- Dedicated
- Adaptable
- Teachable

## SKILLS

- HTML
- CSS/ Sass
- Javascript
- J Query
- Ruby/Rails
- Sinatra
- Databases
- Git
- MEAN Stack
- REACT
- Unix/CLI
- Bootstrap

## EDUCATION

### General Assembly

#### Web Development Immersive

Nov 2016- Feb 2017

- 13 week 600+ hours Full Stack Web Development
- Completed Individual and group projects.
- Built full stack applications using Ruby on Rails and MEAN stack.
- Focused on common best practices in object-oriented programming, MVC frameworks, data modeling and test-driven development.
- Defined user stories and developed wireframes to conceptualize user experience throughout development.
- Tracked development process using Git version control.

## EXPERIENCE

### 2002 - 2016 Professional Boat Builder - Production Supervisor

- Construction of custom carbon fiber ocean racing yachts
- Created standards of workmanship and best practices.
- Brought the facility, standards, and processes to compliance with ISO standards
- Built vessels to LLOYDS specification and certification
- Instrumental in the development of standards and processes for hiring, training, safety and development of staff.
- Delivered vessels on time, under budget, that met or exceeding customer expectations
- Specified materials, equipment, and layout of the facility.

## INTERESTS

Extensive experience sailing, both cruising and racing, from small boats to large yachts, navigating buoy racing to offshore ocean racing. I enjoy building models, puzzles, golf, skiing, and fishing.
